

EXAGRID[®]

Tiered Backup Storage

2020 - Recognition from Industry Awards

7 Awards / 3 Publications

SDC Awards – December 2020

- Storage Company of the Year
- Storage Hardware Innovation of the Year
- Vendor Channel Program of the Year

Storage Awards “The Storries XVII” – November 2020

- Enterprise Backup Hardware Vendor of the Year
- Storage Performance Optimization Company of the Year

Network Computing Awards – October 2020

- Company of the Year
- Hardware Product of the Year

2021 - Recognition from Industry Awards

9 Awards / 3 Publications

SDC Awards – November 2021

- Storage Company of the Year
- Storage Hardware Innovation of the Year
- Vendor Channel Program of the Year

Network Computing Awards – October 2021

- Bench Tested Product of the Year
- Company of the Year
- The Return on Investment Award
- Storage Product of the Year

Storage Awards “The Storries XVIII” – October 2021

- Enterprise Backup Hardware Vendor of the Year
- Immutable Storage Company of the Year

ExaGrid Named a Finalist for the 2022 Storage Awards 11 / nominations

Tiered Backup Storage Company Nominated in 11 Categories at “The Storries XIX”

Marlborough, Mass., April 18, 2022 – [ExaGrid®](#), the industry’s only Tiered Backup Storage solution, today announced that it has been nominated in 11 categories for the 19th annual [Storage Awards](#).

ExaGrid has become a finalist in the following categories:

- Capacity Storage Vendor of the Year
- Channel Partner Program of the Year
- Data Protection Company of the Year
- Enterprise Backup Hardware Vendor of the Year
- Hybrid Storage Vendor of the Year
- Immutable Storage Vendors
- Ransomware Protection Company of the Year
- Storage Company of the Year
- Storage Innovators of the Year
- Storage Performance Optimisation Company of the Year
- Storage Product of the Year

ExaGrid Named a Finalist for the 2022 Network Computing 7 / nominations

Tiered Backup Storage Company up for Seven Industry Awards

Marlborough, Mass., May 9, 2022 – **ExaGrid®**, the industry's only Tiered Backup Storage solution, today announced that it has been nominated in seven categories for the annual **Network Computing Awards**. Winners of this year's awards will be announced at the awards ceremony in London on June 23, 2022.

ExaGrid has become a finalist in the following categories:

- Storage Product of the Year – ExaGrid Tiered Backup Storage
- The Return on Investment Award – ExaGrid Tiered Backup Storage
- Hardware Product of the Year – ExaGrid Tiered Backup Storage
- Software Product of the Year – ExaGrid Cloud Tier to AWS
- Product of the Year – ExaGrid Tiered Backup Storage
- Company of the Year – ExaGrid

Two Worlds: Low Cost Disk or Inline Deduplication Appliances

Low Cost Disk
Dell, HPE Nimble, NTAP eSeries, Cisco 3260, Others

Pros

Fast for backups
Fast for restores

Cons

Expensive for retention
Uses a lot of disk

or

Inline Deduplication Appliance
Dell EMC Data Domain
HPE StoreOnce, Veritas 5200/5300

Pros

Lower disk usage

Cons

Slow for backups
Slow for restores
Not scalable
Expanding backup window
Vulnerable to ransomware
Forklift upgrade
Product obsolescence

The Best of Both Worlds: ExaGrid Tiered Backup Storage

ExaGrid Disk-cache Landing Zone
Performance Tier
For High Speed Backups and Restores

ExaGrid Long-term Retention Repository
Retention Tier
For Cost Efficiency

Pros

Fast for backups
Fast for restores

Pros

Lower disk usage
Scale-out storage
Fixed-length backup window
Ransomware recovery option
No forklift upgrades
No product obsolescence

ExaGrid is the only Tiered Backup Storage with a disk-cache Landing Zone for backup and restore performance tiered to a long-term retention repository for cost efficiencies as well as a scale-out storage architecture that scales as data grows. ExaGrid is the best of both worlds by offering both a performance and retention tier.

Requirements for Backup Data Deduplication

Inline Deduplication

Requirements

Fixed Length Backup Window

Scale-out architecture – linear scaling

Ransomware Recovery

Non-network facing tier storage

Fast as disk restores – user SLA

Avoid data re-hydration

Backups as Fast as Disk

Avoid inline data deduplication

WAN Savings

Data Deduplication

Storage Savings

Data Deduplication

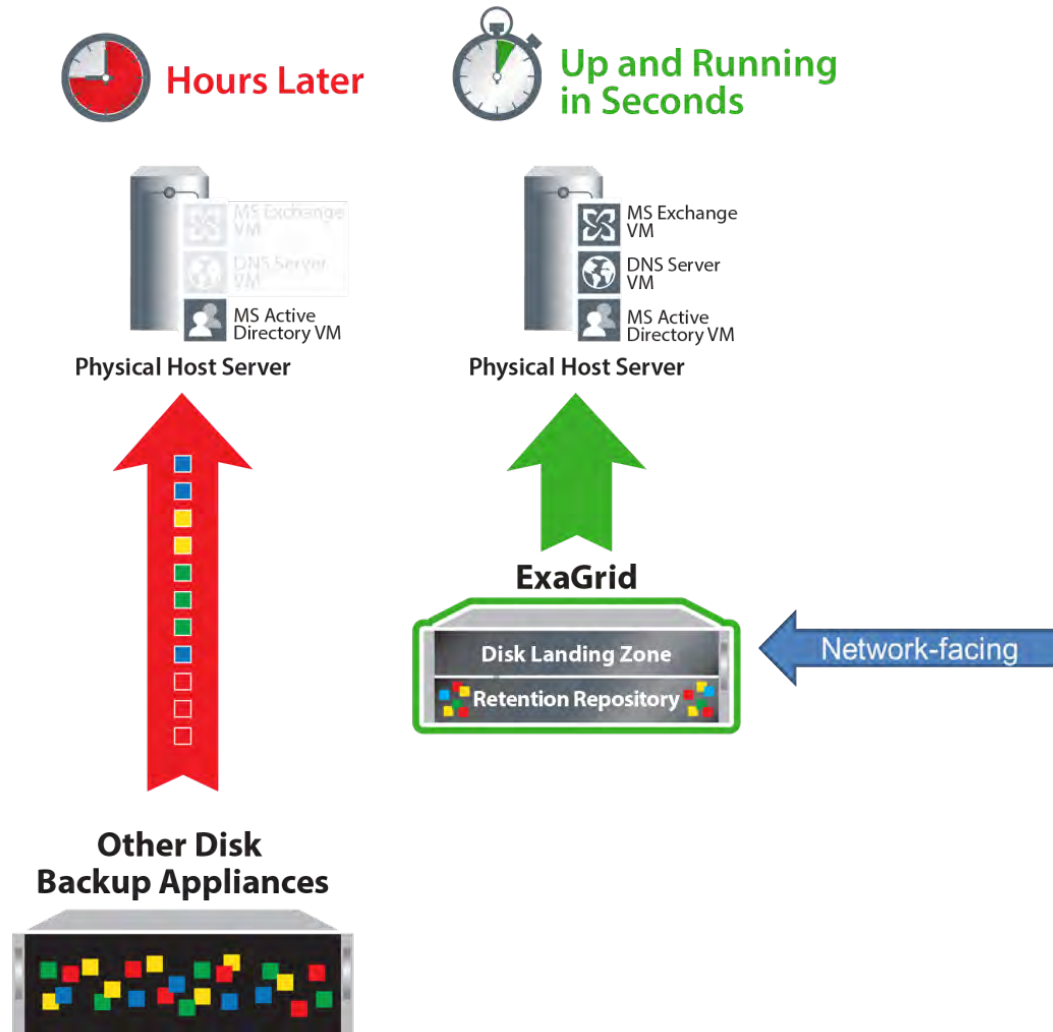

WAN Savings

Data Deduplication

Storage Savings

Data Deduplication

Fast Restores, VM Boots in Seconds to Minutes

Disk-cache Landing Zone

- Most recent backups are in unduplicated form
- Eliminates data rehydration

Benefits

- Restores as fast as disk
- Tape copies as fast as disk
- VM boots in seconds to minutes

Retention Tier

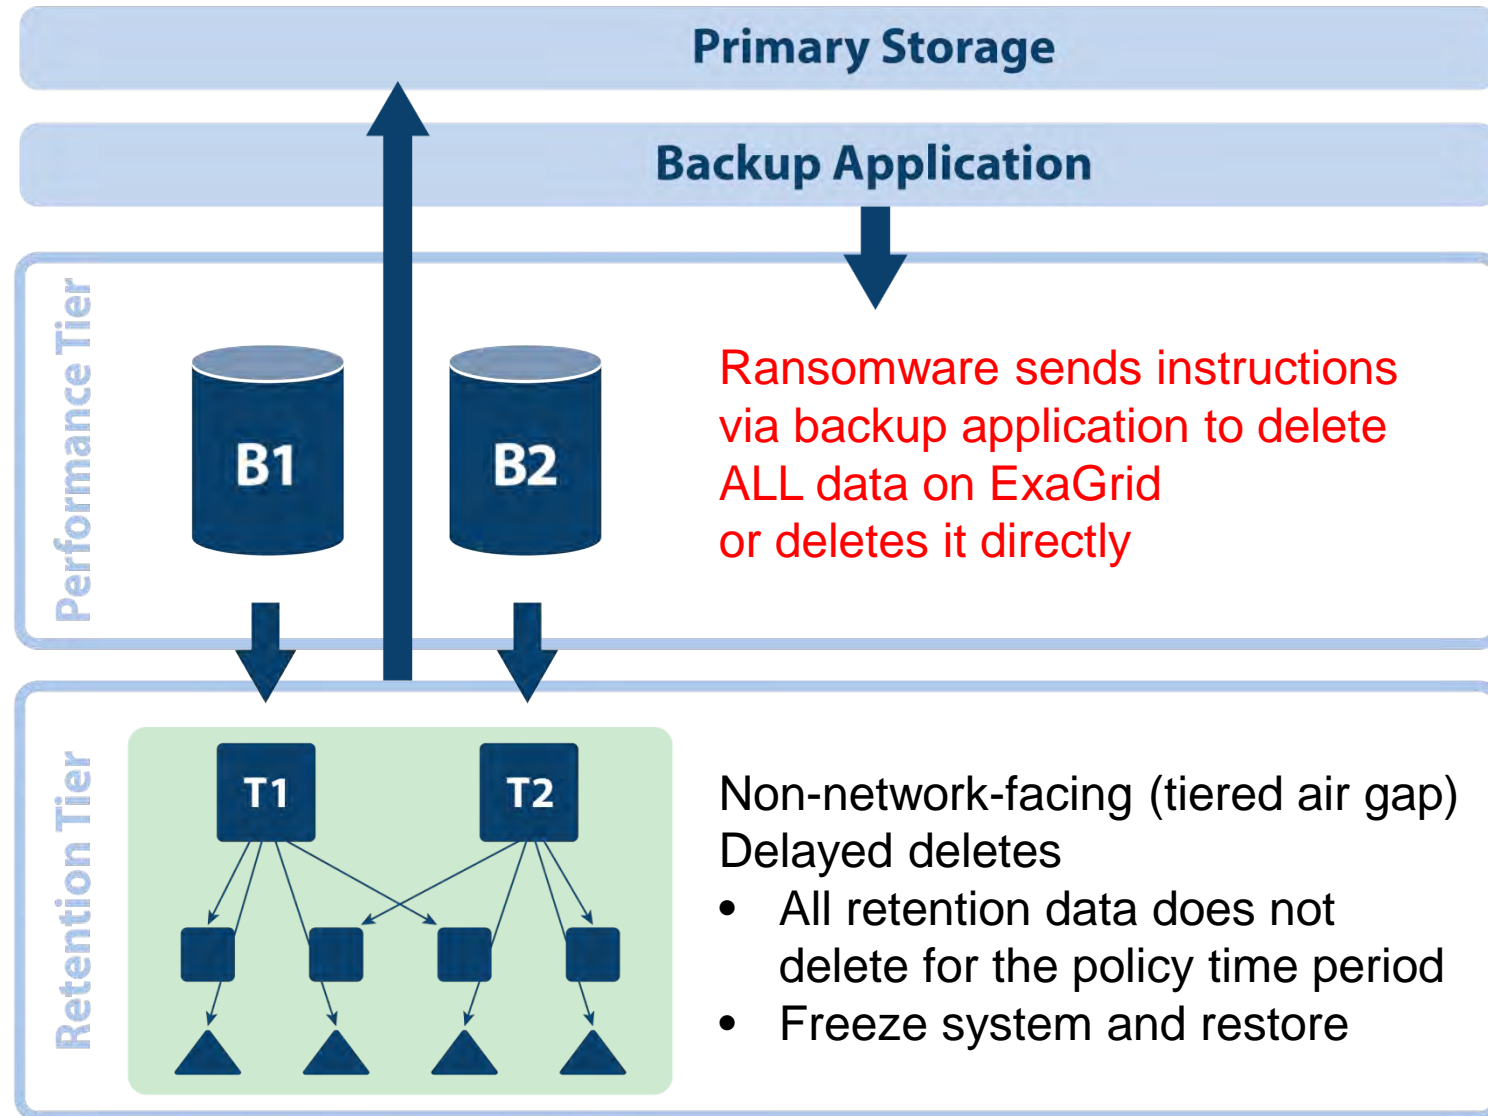

Second Repository Tier

- Long-term retention
- Deduplicated data

Benefits

- Low-cost long-term storage
- Ready for ransomware recovery
 - Non-network-facing tier
 - Immutable objects
 - Delayed deletes

Deletion Protection of Backup Data on ExaGrid

Fixed-Length Backup Window

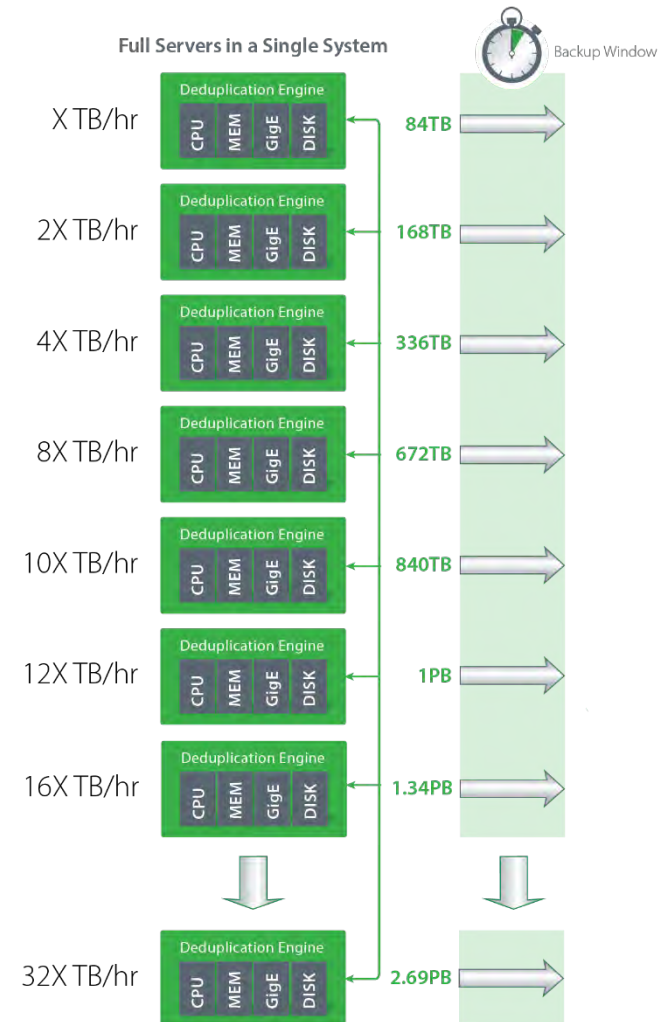

Scale-Up Architecture

Out of storage and ingest - forklift upgrade

Ingest not keeping up with storage

ExaGrid Scale-Out Architecture

ExaGrid Tiered Backup Storage with Data Dedupe Integrated with the Veeam Data Mover

Veeam-to-Veeam Data Mover &
Veeam-to-ExaGrid Landing Zone

Delivers the industry's fastest
backups and shortest backup
window

Most recent Veeam data in ExaGrid
Landing Zone avoids lengthy
rehydration time

VM boots in seconds to minutes and
synthetic fulls 6X faster than Veeam
to disk

Full appliances in a scale-out
system add compute with capacity

Adds backup performance as
data grows

Maintains a fixed-length backup
window/eliminates forklift upgrades

Supports SOBR for automated job
management

ExaGrid Scale-Out Architecture

Works with Industry Leading Backup Applications Heterogeneous Environments

Backup Applications

VERITAS[™] Veeam[™] COMMVAULT[™]

The Future of Backup Storage:

Tiered Backup Storage

System scales to a 2.69PB full backup -

Largest
in the industry

Up to 488TB/hr. ingest rate at 2.69PB full backup -

Fastest
in the industry

Restores as fast as disk,

20X

faster than
dedupe appliances

Backup window that is **fixed length** as data grows

Disk-cache Landing Zone
(performance tier)
for the fastest backups and restores

Long-term Retention Repository
(retention tier)
for low-cost long-term deduplicated retention

Backups as fast as disk,
3X faster
than
dedupe appliances

25+
supported
backup
applications
& utilities

Scale-out
of all
resources
as data
grows

Adaptive
Deduplication
for strong
offsite DR
RTO & RPO

Most complete
& lowest cost
Ransomware
recovery

Lowest cost
up front and
over time

Easy to use,
manage, and
scale

Easy remote
installation –
no onsite visit
required

80% of organizations who test ExaGrid, buy ExaGrid.

\$\$\$

Price Protection Program

Customers give ExaGrid NPS score of +73

No forklift upgrades or planned product obsolescence

Winner of the **MOST** awards in backup storage

The **only Tiered Backup Storage** approach available

Assigned **Level 2 Support Engineer** to eliminate support runaround

15 years shipping product

3000+ customers who save time and money

330+ published customer success stories

25+ supported backup applications & utilities

80% pilot test win rate

85% of customers report into the **health maintenance system**
